Common Response to Many Questions
A number of questions were asked seeking guidance from NJLWD on specific approaches and ideas. NJLWD has released this NGO to obtain the best thinking from proposing agencies on how to effectively meet the goals of the Talent Network NGO and respond to the unique needs of employers and job seekers in the 6 industries. Organizations should offer their best ideas and use their best judgment when developing a response to this NGO.

The answers to more specific questions follow below.

Industry Focus
Q: What is the difference between the Life Sciences (Pharmaceuticals, Biotechnology and Medical Devices) and the Health Care industries?
A: Health Care employers are involved in the provision of health services to individuals. For example, the industry includes hospitals, doctor’s offices and long term care facilities. The industry includes occupations involved in direct patient care and those occupations that support these services. Life Sciences employers are involved in research and development, commercialization, marketing and manufacturing of pharmaceutical, biotechnology or medical device products.

Q: What is the definition used for the Technology / Entrepreneurship industry?
A: NJLWD has not developed a formal definition of this industry. Instead, NJLWD would like those organizations wishing to manage Technology / Entrepreneurship Talent Network to propose a definition for this industry, based on their knowledge of the state’s economy.

Timeframe
Q: What is the start date of the Talent Network grants?
A: Funds will be obligated by June 15, 2011. The start date will be July 1, with a full-scale launch of each Network’s activities in September 2011.

Partners and Scope

Q: Can the Talent Networks serve only particular local communities, particular cities or only specific regions of the state?

Q: What is the Department of Labor & Workforce Development’s (NJLWD) role in the Talent Network?  
A: The Talent Networks are a critical, foundational element of the state’s workforce development strategy. As a result, staff of NJLWD will be heavily involved throughout the entire initiative. NJLWD’s Labor Market Analysts and Business Service Representatives are now focusing their efforts on specific key industries and will work closely with the Talent Network in their industry area. NJLWD will convene regular industry-specific meetings with each Talent Network, key NJLWD staff and key stakeholders to coordinate activities in a particular industry. We expect that the State Employment and Training Commission (SETC) and other state government partners will be also involved with each Talent Network.
